

Term 1, 2017

Welcome!

It has been a great summer and we have enjoyed having many new families join us! We hope to have you with us for many years to come.

Website

Have you seen the new website? It was done by NGMC in Seychelles – they are able to build websites for any company, anywhere! We highly recommend them as they quickly understood what we needed and how best to put it together clearly.

Welcome to Waterwise Perth!

Parkwood

Sincere thanks to Wendy and her family for giving us the use of their pool for Vac Swim, and for Term 1!

Any students who wish to transfer to our indoor pool in Willetton for the winter terms, please let Wendy or Stacy know. There will be limited spots available but we will do our best to accommodate as many students as possible.

Mosman Park

Lessons at Perth's warmest pool are going well! Refer a friend for Term 2 and you both get a free lesson. This applies to Mosman Park enrolments processed up until 30th April.

Willetton

If you are **not** returning for Term 2, please let Stacy know before 16th March so we can start accommodating Parkwood swimmers. The Riverton Leisureplex will be partially closed for Term 2 so there will likely be Riverton students looking for spots too.

Attadale

Survival swim courses and maintenance lessons will be available Mondays to Thursdays in Attadale from mid March. Please contact Stacy for scheduling.

Please check that you are still seeing our posts on Facebook.
Liking posts can help us to help more families. Thank you ☺

Winter Swimming

We have worked hard over the summer to progress your child as much as possible and we would love to keep progressing them over winter too. The diagram below shows the regression that results with taking breaks and is why we strongly encourage year-round swimming. It is also why we offer makeup classes – we know that sometimes children get colds and sniffles and are not fit for lessons. By letting us know if your child is unwell ahead of lesson time, all families can benefit from available spots to ensure that swimmers get the lessons you have paid for – and that children can continue to progress. (Children can swim if they have a mild cold but not if they are blocked up, coughing profusely or struggling to breathe, nor if they have a fever of 38 degrees or higher.)

Freebie!

Tropical Twist in O'Connor has very kindly offered **One Free Entry** to Waterwise students. Please show this voucher at the door. See their website for opening hours and age limits.

Baby Massage

Baby Massage could be the solution mums need! It can reduce crying time, improve sleep patterns, strengthen the immune system, and relieves wind, reflux and constipation. Contact Monique at Time for Two to find out more : 0439 957 698.

*LAUGH * LOVE * SWIM*
