

TERM 3, 2017

Welcome!

Term 2 and Term 3 have been particularly busy and it has been great to see many new families join our lessons! We hope to have you progressing in our programs for many years to come 😊

Africa Water Safety Outreach

Stacy is attending an Outreach in Uganda this October where 300 children will be taught to swim and 50 instructors will be trained to teach survival in water, and water safety.

Do you have bathers for babies, children or adults that are still in excellent condition but no longer used? Please bring them to your next lesson and Stacy will take them to the Outreach where they will be very much appreciated!

More information about the Outreach is available via this link:

Willetton

After 4 ½ years of hiring pools wherever we could (Nedlands, Karrinyup, Parkwood, Attadale, Willetton and Mosman Park!), we are excited to have a pool we can call home 😊

We are grateful to the facilities which have allowed us the use of their pools since 2013.

More about the new pool will be posted in the next few weeks.

Social Media

If you see Waterwise on Facebook or Instagram, please take a moment to like, comment or share. We are always working hard to help more families get confident and safe in water.

WINTER SWIMMING

WOW! Well done, Waterwise families! We had a record 94% enrolments through winter this year.

The students who have continued lessons in spite of the cold and wet weather, have loved soaking themselves in our warm pools - AND their progress has come on in leaps and bounds!

Thank you for your ongoing support! We look forward to seeing you all at your next lesson.

*LAUGH * LOVE * SWIM*
